Non-Invasive Prenatal Screening 200+ Monogenic Diseases

Medical Insurance Consent Form

Dear Customers,

Thank you for choosing BGI's Non-Invasive Prenatal Screening 200+ Monogenic Diseases (NIFTY Mono 200+). The specific genes and related diseases shall be shown in the "Non-Invasive Prenatal Screening 200+ Monogenic Diseases Informed Consent". In order to better apply the advanced genetic testing technology to pregnant women, after receiving your true and valid information, BGI will act as the policyholder, go through the insurance procedures, and pay the insurance fees at PICC HEALTH INSURANCE COMPANY LIMITED (hereinafter referred to as "PICC"). The relevant insurance liabilities are as follows:

1. During the insurance period, if the prenatal screening report of NIFTY Mono 200+ indicates a high-risk or positive result, the costs incurred for the interventional prenatal diagnosis (including but not limited to chorionic villus sampling, amniocentesis, percutaneous umbilical blood sampling, etc.), and the cost of molecular genetic tests for aided diagnosis (including Sanger sequencing, high-throughput sequencing and other detection costs) shall be reimbursed by PICC in accordance with the "守护专家门诊费用团体医疗保险". The medical expenses are reimbursed for the part not paid by the state, and the part paid by the individual. The maximum reimbursement for each client during the period of insurance will not exceed 5,000 CNY. After the compensation, the insurance company will terminate all insurance liability for the client and the fetus. The client shall not claim any other expenses from the testing institution, insured unit, sending hospital and insurance company.
2. During the same pregnancy, if the test scopes of "Non-Invasive Prenatal Screening 200+ Monogenic Diseases" and other NIFTY series products overlap, and the insurance liability is met at the same time, the overlapping part of the test will be paid according to one of the insurance liabilities.

If you have any other enquiries, please contact BGI service team at P_insurance@genomics.cn/+86-400-605-6655 or PICC at +86-95518 (Chinese Mandarin service).

BGI will provide personal information to PICC to support the processing of the client's insurance and claims. Please note that the client's personal information will be transferred across borders for insurance and claims processing; for more information, please see the Privacy Policy (https://www.bgi.com/global/resources/privacy-policy/).

Please read the above terms and conditions carefully and fill in the insurance information. The client's information provided must be true and correct and must be consistent with the credentials of the client (or other identification). The insurance company refuses to pay compensation due to the inconsistency between the information provided by the client and the actual information or the credentials, and the client will be held responsible.

I HAVE A CLEAR UNDERSTANDING OF THE ABOVE TERMS, THE INFORMATION PROVIDED IS TRUE AND CORRECT, AND I AGREE TO BE INSURED.
